

PTOLEMY

Telecon to be held on 24 of July 2018 at 16:00 Rome Time Zone

Agenda:

- 1) Lol on archive? (Alfredo/Marcello)
- 2) Skeleton of the paper on: The Physics reach of the PTOLEMY project (StefanoG/GianpieroM)

A.O.B

Minutes:

Chris was not able to participate but he wrote to Marcello and Alfredo and mentioned that he managed to achieve significant improvements on the design of the new Mac-E filter. Alfredo and Marcello proposed to put on archive the Lol as it was submitted to the LNGS SC. There was a common consensus even though the presence of PTOLEMY collaborators was not large. An email will be circulated to collect possible objection.

It was pointed out that the version of the Lol that will go on archive does not contain the theory part that will mainly appear in the Physics Reach papers.

Marcello insisted to have the promised skeleton of the Physics paper asap to be able to better define the contribution we miss.

Marcello called GP on the telephone and he promised to provide something by next week.

We will have another meeting on August 8th and then there will be a summer break.
