

# PTOLEMY

Telecon to be held on 19 of September 2018 at 16:00 Rome Time Zone

Agenda:

- 1) Status of the paper on the new filter idea (Chris)
- 2) Status of the paper on the physics reach (StefanoG/Gianpiero)
- 3) Report from the Commissione II meeting and budget allocation (Alfredo/Marcello)
- 4) Report on the prototype shipment organization (Marcello)

A.O.B

Minutes:

Chris presented the paper on the idea of a new electro and magneto static filter.

The paper was circulated and quick feedback are expected.

Chris has the deadline to publish the paper on the Progress In Particle and Nuclear Physics (IP 11.049 on 2017) on October 15th. He is confident that also the paper on Physics reach can be published on the same journal.

StefanoG made a quick report on the physics reach paper. Soon we should have the draft. Gianpiero is personally working on the Abstract, Introduction and conclusion which were missing.

Marcello and Alfredo made a quick summary of what happened in the Commissione II.

The project is supported with 20 kE for 2018 to be used partially to transport the prototype from Princeton to LNGS and partially for consumable and travel.

Marcello announced that he already contacted the Italian company that will take care of the transportation.

As soon as Chris has completed the packing of all components we will proceed to the shipment.

JuliusC mentioned about the idea to apply for a Synergy EU Grant where the partners are EU countries. Probably it will be a common project between Italy, Spain, The Netherland and Sweden. The deadline is November the 8<sup>th</sup>.
